

The Veterinary Emergency & Specialty Center of New England is looking for a FT qualified individual with excellent anesthetic skills and experience in dealing with critical patients while under anesthesia. Interested candidates must be able to work in a fast-paced, challenging environment and have the ability to function independently with confidence as well as with a team. This position also requires knowledge of surgical instrument care and sterile techniques. On call rotating schedule which includes some weekends and holidays required.

**Basic Requirements:** Associate or Bachelor degree from an AVMA accredited program in veterinary technology with a current CVT status. Specialty certification in anesthesia encouraged.

Some of the benefits include:

- Excellent CE package
- Monthly in-house CE
- Health and Dental
- Retirement program
- Generous paid vacation
- Uniform allowance
- 10 hour shifts which allow you to have off 3 days a week!
- Generous on call bonus
