

Veterinary Technician - Anesthesia/Surgery

New England Animal Medical Center is seeking technicians experienced in a surgical setting for full-time and part-time positions.

All applicants must be certified or certification eligible. In addition, the ideal candidate will possess the knowledge and skills to provide support in all aspects of veterinary surgery, anesthesia, surgical assisting, pre- and post-operative patient care, radiology and assisting doctors with clinical appointments.

We are a large multi-faceted medical center and teaching hospital, located between Boston, MA and Providence, RI. Led by our board certified veterinarians in emergency & critical care, surgery, internal medicine and radiology; we are a major referral center in Southeastern Massachusetts.

We offer competitive salaries, excellent benefits package, and an invigorating work environment.
